

Tupperware® Tiny Treasures™

Citrus Peeler — Mold #727

Peel all types of citrus fruits with ease. Score citrus in full circle around the outside in one direction using the hook end. Repeat in the opposite direction. Insert flat end under citrus skin and peel off sections.

Rocker Scoop — Mold #292

A flexible scoop for flour, sugar and other staples. It's ready to use and requires little space when stored inside canisters. When canister is full, place scoop with pouring edge down and push into sugar or flour until just flat end is showing. If necessary scoop can be squeezed into container with small opening.

Large Funnel — Mold #1227

Ideal for transferring liquids or a powdered, granular product without spilling. The raised edge on the outside of the funnel neck allows air to escape from the container being filled. This prevents an overflow of liquid from the funnel. Handle top is finely textured, allowing for a firm grip.

Yolkster — Mold # 779

Eggs are easily separated with the Yolkster. Place Yolkster over cup or bowl; crack egg, separate the shell and pour egg into Yolkster. Yolk is held in inner section while egg white drains through opening into cup or bowl. Handle slots and flange make it possible to attach or rest Yolkster on container rim. Handle is finely textured for a firm grip. Hole on end for hanging.

Keychain: Sports Bottle — Mold # 80857

Keychain “charm” version of the adorable Sports Bottle.

Keychain: Shape-O® Toy — Mold # 740
