HOW MUCH MONEY CAN I MAKE?

We make 25% of everything we sell. There are multiple ways of selling Tupperware® products. We call these events. Examples are home parties, multiple host events, office demos, virtual events such as Facebook parties, Zoom parties, texting and one to one sales. For every \$500 sold, you will earn \$125. We also qualify for bonuses based on volume, so the more you sell the higher percentage you can earn.

HOW MUCH TIME WILL IT TAKE?

That varies on the way you choose to sell. A home party takes about 2 hours, plus prep time. A Facebook party takes less time, but is spread over several days.

HOW MUCH DOES IT COST TO GET STARTED?

Our Deluxe Demo Kit, valued at more than \$370 is available for only \$119. Our Virtual option is only \$15. It does not include any Tupperware® Brand Products, but registers you in the system. This is a great option for those that have a lot of Tupperware® products already, or those that are planning to do all of their parties online. It's also a great option for those that simply want to be a team member to take advantage of the discount and all the other perks that come along with being part of our team.

HOW DO I GET STARTED?

We recommend that every team member hold an event of some type. This will help you earn all the host benefits, cover the cost of your kit, learn how to hold a successful event and let everyone know that you are their Tupperware® Connection.

WHAT OTHER BENEFITS CAN EXPECT?

Free training, setting your own hours, fun, friends, monthly incentive gifts, AND an opportunity for advancement to leadership with additional income, travel and a free car! Our leaders can make 6 figures!
